Wants Judgment Withheld. Washington, March 20.—Democratic Leader Underwood to-night asked that the country withhold judgment on the tariff revision bill until it is presented to the House and made public

by the authority of its framers. All along he has insisted, as chairman of the Ways and Means Committee, upon

the ways and Means Committee, upon absolute secrecy regarding the measure. He said to-night:

"Since the Ways and Means Committee commenced its work of revision of the present tariff laws, I have stopped work to-night, after many press, but recently I have read in the press of many michaeller. papers so many misleading statements about the work of the Ways and Means Committee and so many assertions of fact which are not fact as to what the committee has done con-cerning the various paragraphs and schedules of the bill that I feel that it is fair to the public to say that prac-tically every statement that I have read in reference to the rates of duty that would be imposed on the articles enumerated in the proposed new tar-iff bill is absolutly misleading and most of them entirely wrong. I hope that the country will not prejudge the

bill until it is introduced in Congress and authoritatively made public."

Mr. Underwood was weary when he stoped work to-night, after many hours' study of the coming Underwood bill. Statistical experts had been closeted with him, figuring on the revenue probabilities, and a maze of figures had passed in review before them. Meantime the individual members of the Democratic majority were busied with tariff details, and a subcommittee was working, considering administrative and income tax provisions of the coming Underwood bill.
